WORLD MARKET

A world full of beauty

BAZAAR BERLIN is Germany's most international sales fair for handicrafts, design, natural products and fair trade items. From 4 to 8 November 2020 approximately 500 exhibitors from over 60 countries inspire some 40,000 visitors with their high quality products. In the run-up to Christmas the receptive visitors with their significant purchasing power take this opportunity to buy handmade gifts, each with its own particular history. Use this unique sales platform to present your products.

The diversity of Bazaar Berlin is reflected in its five fields:

WORLD MARKET / **FAIR & SOCIAL** / **NATURAL LIVING**
ART & STYLE / **WINTER AT HOME**

Unique items from around the world

The WORLD MARKET offers visitors a world of exciting things to buy and experience. Arouse a longing for faraway places by displaying typical local handicrafts, fashion and designer jewellery, decorative items, textiles for the home, accessories, foodstuffs or cosmetics. Test your products directly on customers and establish successful business contacts.

Focus on the unusual

The world of ART & STYLE offers the perfect ambience for design, exceptional jewellery, individual fashion and accessories. Present your current collection in a special setting. High quality products from the up-market Lifestyle segment will be eagerly awaited by an urban, design-oriented public, who will also be eager to make purchases.

Fair trade unifies

Along with items with fair trade certification from the existing FAIR TRADE MARKET, the new FAIR & SOCIAL section will also incorporate products not only from internationally active companies and organisations but also from local workshops with a social background. Nowadays increasing numbers of people are motivated to purchase a product because of its origin, and the way in which it is made and traded.

NATURAL LIVING

In harmony with nature

In the NATURAL LIVING section everything revolves around physical and emotional well-being. The products and services on offer here promote health, relaxation and a slower pace of life. Whether it is healthy eating, natural cosmetics and natural textiles, ayurvedic or wellness products: NATURAL LIVING is the perfect forum for your ecological and sustainable products.

WINTER AT HOME

The perfect ambience

With a wide and varied range of decorative and stylish items, WINTER AT HOME creates the ideal setting for the general public and retailers to get into the mood for the upcoming festive season. The assortment ranges from beautiful home accessories to decoration and gift ideas, as well as delicious treats and Christmas specialities.
